

International Investment Forum "New Kyrgyzstan 2018" to be held in Bishkek on 28-29 June

Swiss-Central Asian Business Council announces that the International Investment Forum "New Kyrgyzstan 2018" will be held in Bishkek on 28-29 June.

Kyrgyzstan's peaceful and democratic 2017 Presidential elections signalled a stable outlook for many years ahead. The goal of the Forum is to inform the international business community that the Kyrgyz Republic stands firmly on the path of stable development open to international investment, and to enable those considering an investment or developing a business in Kyrgyzstan to make direct contacts with key decision makers in this country.

The Forum will be attended by the key figures in the Government of the Kyrgyz Republic who will be speaking on matters of importance for any potential foreign investor. The country's business community will be represented by decision makers and experts from various industries, from agriculture and mining to hi-tech startups.

We invite everyone with an interest in the region to attend the Forum and get a first-hand impression of the business and investment potential of the Kyrgyz Republic - an open and investor-friendly gateway to the Central Asian region.

The Forum is scheduled to take place in the residential complex of the President of the Kyrgyz Republic (State Residence No 1) and will last two full days during which you will have the opportunity to meet Kyrgyzstan's decision makers and entrepreneurs who drive innovation and development of this beautiful country.

The Organizers

Swiss - Central Asian Business Council (*Verein*) is a Zürich-based private non-profit organization serving as a platform for business dialogue between the business communities of Switzerland and Liechtenstein on one side and Central Asian countries on the other. In Kyrgyzstan it supports the exposure of local businesses to the

international markets and sponsors several charitable initiatives, such as the Business Council Cup for street soccer, exhibitions etc.
